TAXI MONOPOLIES PLAN NEW FIGHT ON LEGAL RATES

Will Operate at 50-Cent-a-Mile Tariff and Try to Prove

a Loss Results.

INDEPENDENTS GLEEFUL

Declare They Are Making Money and Cannot Handle the Business of Patrons.

The taxical monopolies have not given up their fight for the retention of illegal private hack stands and excessively high rates of fare, but are prepared, in a new fight, to attack Justice Seatury's decision that the new taxicab ordinance for which The Evening World made such a long fight, is valid.

In addition to appealing from Justice abury's decision the taxicab com ies are preparing a new line of atfor the seaming surrender of the Mason man Transportation Company, which has equipped 200 of its 700 cars with the

new rate meter.

William H. Barnard, president of the International Salt Company, and multimillionaire head of the Mason-Seaman Transportation Company, is authority day for the statement that the company will seek later to show, by opersting cars on the 50-cent-a-mile basis that it cannot work at a profit, and thus attack the new rate as confiscatory. EXPECTS TO PROVE NEW RATE CONFISCATORY.

he law has said we can charge onl cents for the first half mile and 50 cents for the mile, instead of 50 cents the first half mile and 80 cents fo mile, as we formerly charged," said Mr. Barnard, "and we have complied bury's decision, which makes the law binding during appeal. We are going noney during the fight, but we lose a lot more money if we down our immense plant com-

We have been informed that we can not press our charge that the new rate court and show actual figures to bear ped 300 of our cars with the new 20-cent first drop meters and will operate them petition with the 'buckers.'

Then, after a reasonable time, we our cost of operation and our receipts. these figures show a loss to us, we or, if the courts still insist that the dinance is binding, that the Board of Aidermen will so amend the rate as give us a legitimate business profit. 'It costs us a lot of money to operate.

In our big plant we manufacture one ew car every two days to take the That is just one example."

THE INDEPENDENT FINDS REAL PROFIT IN NEW RATE.

claim that cars cannot be operated at a profit on a "first drop" laughed at by Edwin S. Goodnow, treasurer and general manager of the Independent Taxicab Owners' Association, which long ago adopted the cheaper rate and which led in the fight for the tion of the new ordinance.

"I own a taxicab myself, and I make noney on it at the 30-cent rate," said Mr. Goodnow. "If I didn't, I'd quit the business. But I do make money. I have pay a chauffeur to run the car, and I have to pay more for my tires. gasoline, oil and repairs, because I cannot buy in such quantities as the larger corporations.

"Of course, I have no such overhead expenses as the large companies, but that is easy to explain. If they did not have so many high-priced and unneceseary officials, and had not been paying out fortunes each year for the illegal ivate hackstand privileges in front of the hotels, they wouldn't have such enormous overhead charges. That is where their profits go. No wonder the stockholders don't get dividends.

"I have kept absolutely accurate figures, and I know I can operate a baby taxicab' for less than six cents a mile. and a big taxicab for less than 12 cents s mile. You must take into consideration that in operating my car I had far more 'dead mileage' than the big companies, and every dead mile is dead loss Yet I operated for the figures I have given. I had more 'dead mileage' because, under the old system, there were few public hackstands and when my car took a passenger way up to Harlem it had to come back downtown to a public stand without a passenger. The big companies owning the city's streets for private backwards could not a street for now, and the present supply will not be wakened him she said the wakened him she said times now, and the present supply will not be wakened him she said. car took a passenger way up to Harlem private hackstands, could send a passenger to Harlem and have the sam car enter one of its private stands there and get another passenger downtown, avoiding dead mileage.

MORE PROFITS NOW WITH "DEAD" MILEAGE GONE.

"Now that we independents can do the same thing, we will eliminate our dead mileage and can operate ourselves even cheaper than the figures I have

We are delighted with the operation of the law for which The Evening World made such a fight. In my own case, business has increased 75 per cent. while mileage has increased but 20 per cest. The increase of business over that we independents can now eliminate chstand to where we dropped a pas-

The legal fight to overthrow the new taxicab ordinance, so far as the Supreme Court is concerned, ended yesterday when Justice Donnelly, before as good as the game. whom the big taxicab companies made their last stand, threw the injunction applications of the American Taximeter Company and the Broadway Auto Tour ing Company out of court.

It took Justice Donnelly scarcely more than twenty-four hours to make up his mind that the taximeter company and the touring company had no standing in court and by concurring in Justice Seabury's decision upholding the ordinance, further injunction pro ceedings against the law are practically

SEES MAN DROP TO DEATH.

Policeman Runs Up, Finds Friend to Whom He Just Said 'Good Night.' After Ludwig F. Georse, thirty-nine, a bartender, had closed up his saloon at One Hundred and Thirty-seventh street and Brook avenue about 3.30 this morning, he stood for a few moments chatting to Policeman Lorber, a block away, before going on to his home, at No. 250 Brook avenue. A little time afterward my word for it that there will be 1,000 down from the fifth floor of the house more cars on the streets of New York within a year—and every one of them will be making money. The cheaper the rates the more demand for cars.

Hrook avenue. A little time afterward Lorber saw something come hurtling down from the fifth floor of the house where Georse lived, and, running up, found Georse, aroused by Lorber, said her husband must have dropped off to also mad fallen out of the window con now, and the present supply will not be | wakened him, she said.

Save the Babies.

NFANT MORTALITY is something frightful. We can hardly realize that of all the children boan in civilized countries, twenty-two per cent., or nearly one-quarter, die before they reach one year; thirty-seven per cent., or more than one-third, before they are five, and one-half before they are fifteen!

We do not hesitate to say that a timely use of Castoria would save a majority of these precious lives. Neither do we hesitate to say that many of these infantile deaths are occasioned by the use of narcotic preparations. Drops, tinctures and soothing syrups sold for children's complaints contain more or less opium or morphine. They are, in considerable quantities, deadly poisons. In any quantity, they stupefy, retard circulation and lead to congestions, sickness, death. Castoria operates exactly the reverse, but you must see that it bears the signature of Chas. H. Fletcher. Castoria ususes the blood to circulate properly, opens the pores of the skin and allays fever.

MURDERS HIS BRIDE **GETS AWAY IN SAFETY**

Unhappy Honeymoon Fol lowed Elopement and Slaying Ends Breaking Up Home.

After an unhappy married life of six reeks, Savuroro Parulo, a young man whose good looks and fine clothes have caused sighs from Mulberry Bend to Sullivan street and East One Hundred and Sixteenth street, strode out of his spartment, No. 426 West Thirtieth street. He left behind him his bride, who, as Maria Ferrone, has been popular for a year or more as a singer the Italian moving picture theatres all over the city. With her was her brother Pasquale, who is a moving picture actor.

during the outing, Harold raked his The three had been quarrelling all mind for a comparison. The only thing night. It had been agreed that the that approached it, he thought, was the home should be broken up. Young Parulo said that it was more than he morial Day, which was won by a "little could bear to have his wife going around to theatres where strange men colored fellow." Eddle was then confined to the bed that he didn't leave for made eyes at her and threw her kisses every night. Maria said that it was eight months, but Harold was in the race and going strong until a collision more than she could bear to have a husput him out of the running. Did he get band who thought her a fool and a hurt? Well, you can't get hurt very much with an inch-thick plaster-cast

soon after his going away, the it talment furniture men came and carried away all the furniture on Parulo's ital in about a month and, with the order, even to the carpeting and th ald of crutches, will be able to take in pictures. Mrs. Parulo went across the one of the world's series games.
